

Homework 0 - Analytic number theory

Frank Thorne, thornef@webmail.sc.edu

(10 points each time.) Attend our number theory seminar, or any other number theory seminar, and write a half-page to a page in response to the talk. Among some questions you might address: What was proved in the talk? What kind of methods were used? What other kinds of results might one be able to obtain along similar lines? What would you like to learn after hearing this talk?
